The cruel misuse + abuse of innocent
creatures for any human purpose is
an ABOMINATION! Surely such erroneous
ideas must not become rubber stamped +
patentable. i.e. profitable to patent holders!

I support the Request for Re-examination of Patent # 6,924,413 submitted by the American Anti-Vivisection Society
(AAVS) challenging the patenting of rabbits and other animals whose eyes have been purposefully damaged.

I am opposed to the USPTO's practice of issuing patents on animals. This is an inappropriate application of United
States Patent Law. Animals are sentient beings, not machines or mere "compositions of matter."

I urge you to grant the Request for Re-examination.
